# Christian Missionary Labors Across America

Earliest Christian proselyting <sup>efforts</sup> in America were the Spanish Catholic friars who established a series of Monasteries + accompanying <sup>Military</sup> presidios all across the southern border of the present USA, including 21 missions in California from 1769 to 1823; at least five in Arizona; at least 10 in New Mexico; at least 12 in Texas; at least four in Louisiana; and at least 2 in Florida. This formed

# Missionary Labors in the West

John

The first mission in the West was established in 1811 by the American Board of Commissioners for Foreign Missions. The first missionaries were Dr. John A. King and his wife, Mary. They went to the city of San Francisco, California, and established the first mission there. The mission was successful in converting many people to Christianity, and it was the beginning of a long and fruitful mission in the West.

Offer Expires:  
September 22, 2006

Dear Raymond Green,

We have some fantastic choices for you at our store location listed below. Here's the deal:

- Come in with this letter, and you can buy one Nokia 6102i camera and video phone and **get one FREE!** Your first phone is just \$29.99 and the second phone is FREE after \$50 mail-in rebate debit card with a two-year agreement on each phone. This phone is fully loaded . . . **video recording and playback** . . . mobile Instant Messaging . . . **Bluetooth® wireless connectivity** . . . speakerphone . . . and a lot more.
- To go with your new Nokia 6102i, you can also get a hands-free Bluetooth headset for just \$39.99 after \$20 mail-in rebate debit card.
- Or choose a Nokia 6030 FREE after instant rebate with a two-year agreement. It features a **wireless Internet browser** . . . Mobile Instant Messaging . . . speakerphone . . . **predictive text input** . . . and a lot more.

**This special offer is available at this store. So hurry in today to get your new phone!**

**Cingular Wireless, University Mall, 575 University Pkwy  
Orem, UT 84097**

What's more, Cingular has the fewest dropped calls of any wireless carrier. Don't take our word for it. The leading independent wireless research company proved it!

You can also get Rollover Minutes® that lets you **keep your unused Anytime Minutes from month to month** for up to 12 months on select plans. And you can talk to over 56 million other Cingular customers with the largest Mobile to Mobile calling community in America -- at no additional charge on select plans.

What are you waiting for? Come into our store to pick up your choice of phones or call toll-free 1-800-449-1679 today!

Sincerely,

Jace Barbin  
Vice President  
Cingular

P.S. This offer is only available to people like you who are Pre-Approved for wireless service. So be sure to bring this letter with your Pre-Approval Number: R255077647 when you come in to take advantage of this offer. Remember, offer expires September 22, 2006.

**You can choose to stop receiving "prescreened" offers of credit from this and other companies by calling toll-free 1 (888) 567-8688. See PREScreen & OPT-OUT NOTICE on the other side for more information about prescreened offers.**

## Millers and Millwrights 1859 and on

The grinding of grains into meal, grist, and to refined flour has gone through many improved methods.

The aborigines Indian women used two rocks to grind their corn into a usable meal to make food. The two rocks had names. The large flatter stone was placed on the ground and was saucer-shaped and called the "metatee". The smaller, elongated stone was held in the hand or two hands. It was called the "mano". She would place a limited number of kernels on the flat stone and then grind them with the smaller stone, first crushing the kernels and finally grinding them into a coarse meal. The Indians learned this method from the Spanish.

The Pioneers used coffee-grinders to make a very coarse wheat grist, which they had to cook for a long time. It was not satisfactory.

Later a horse-powered, chopper, hopper mill was contrived by William P. Reynolds and Ephraim Smith. The horse pulled a long oak arm around and around in a circle, which drove an iron grinder and ground the wheat into a finer grist. This helped.

It was not til 1862 that Johannes Halmah Van Wagoner used an over-shot water wheel in Snake Creek, at Benjamin Mark Smith's Grove in Stringtown, to drive his home-made grist mill. He actually chiseled two large 24" round millstones—one stationary *on bottom* at the *bottom* and a mobile stone to grind a finer grist *on top*. This was more satisfactory.
